Notes

Rental Offer by Max Malte Brellochs AUDIObrelloX

The rental offer is aimed at commercial enterprises, event organizers, and rental companies. Through our extensive network of rental companies, we are generally able to offer equipment in excess of our currently available rental stock.

In addition to dry hire, we offer the following additional services:

Cable flat rate

All devices supplied by us racked are delivered with the required power and CAT / BNC MADI cables.

Prep

All consoles and rackmount devices supplied by us are preconfigured as a ready-to-use system.

Warehouse Support

In addition to standard preparation (as described above), warehouse support includes support from our staff in setting up the equipment, fulfillment of special requests and assistance with system setup and configuration.

Agreement on rental conditions with Max Malte Brellochs AUDIObrelloX - Excerpt from General Terms and Conditions

All of our devices have the latest stable software/firmware version, unless otherwise agreed with us in advance.

Unless otherwise agreed in individual cases, our current prices apply at the time the contract is concluded, from our company headquarters in Baden-Baden, plus VAT. Our offers made for the rental period apply as the basis for calculating the rent for the equipment, technical equipment, including accessories, and other services provided to the tenant.

The rent is generally calculated hourly, daily and monthly.

Technical failures, if these are unforeseeable by AUDIObrelloX, are within the realm of possibility and are not a reason for a rent reduction. Further claims caused by the failure of a device are excluded.

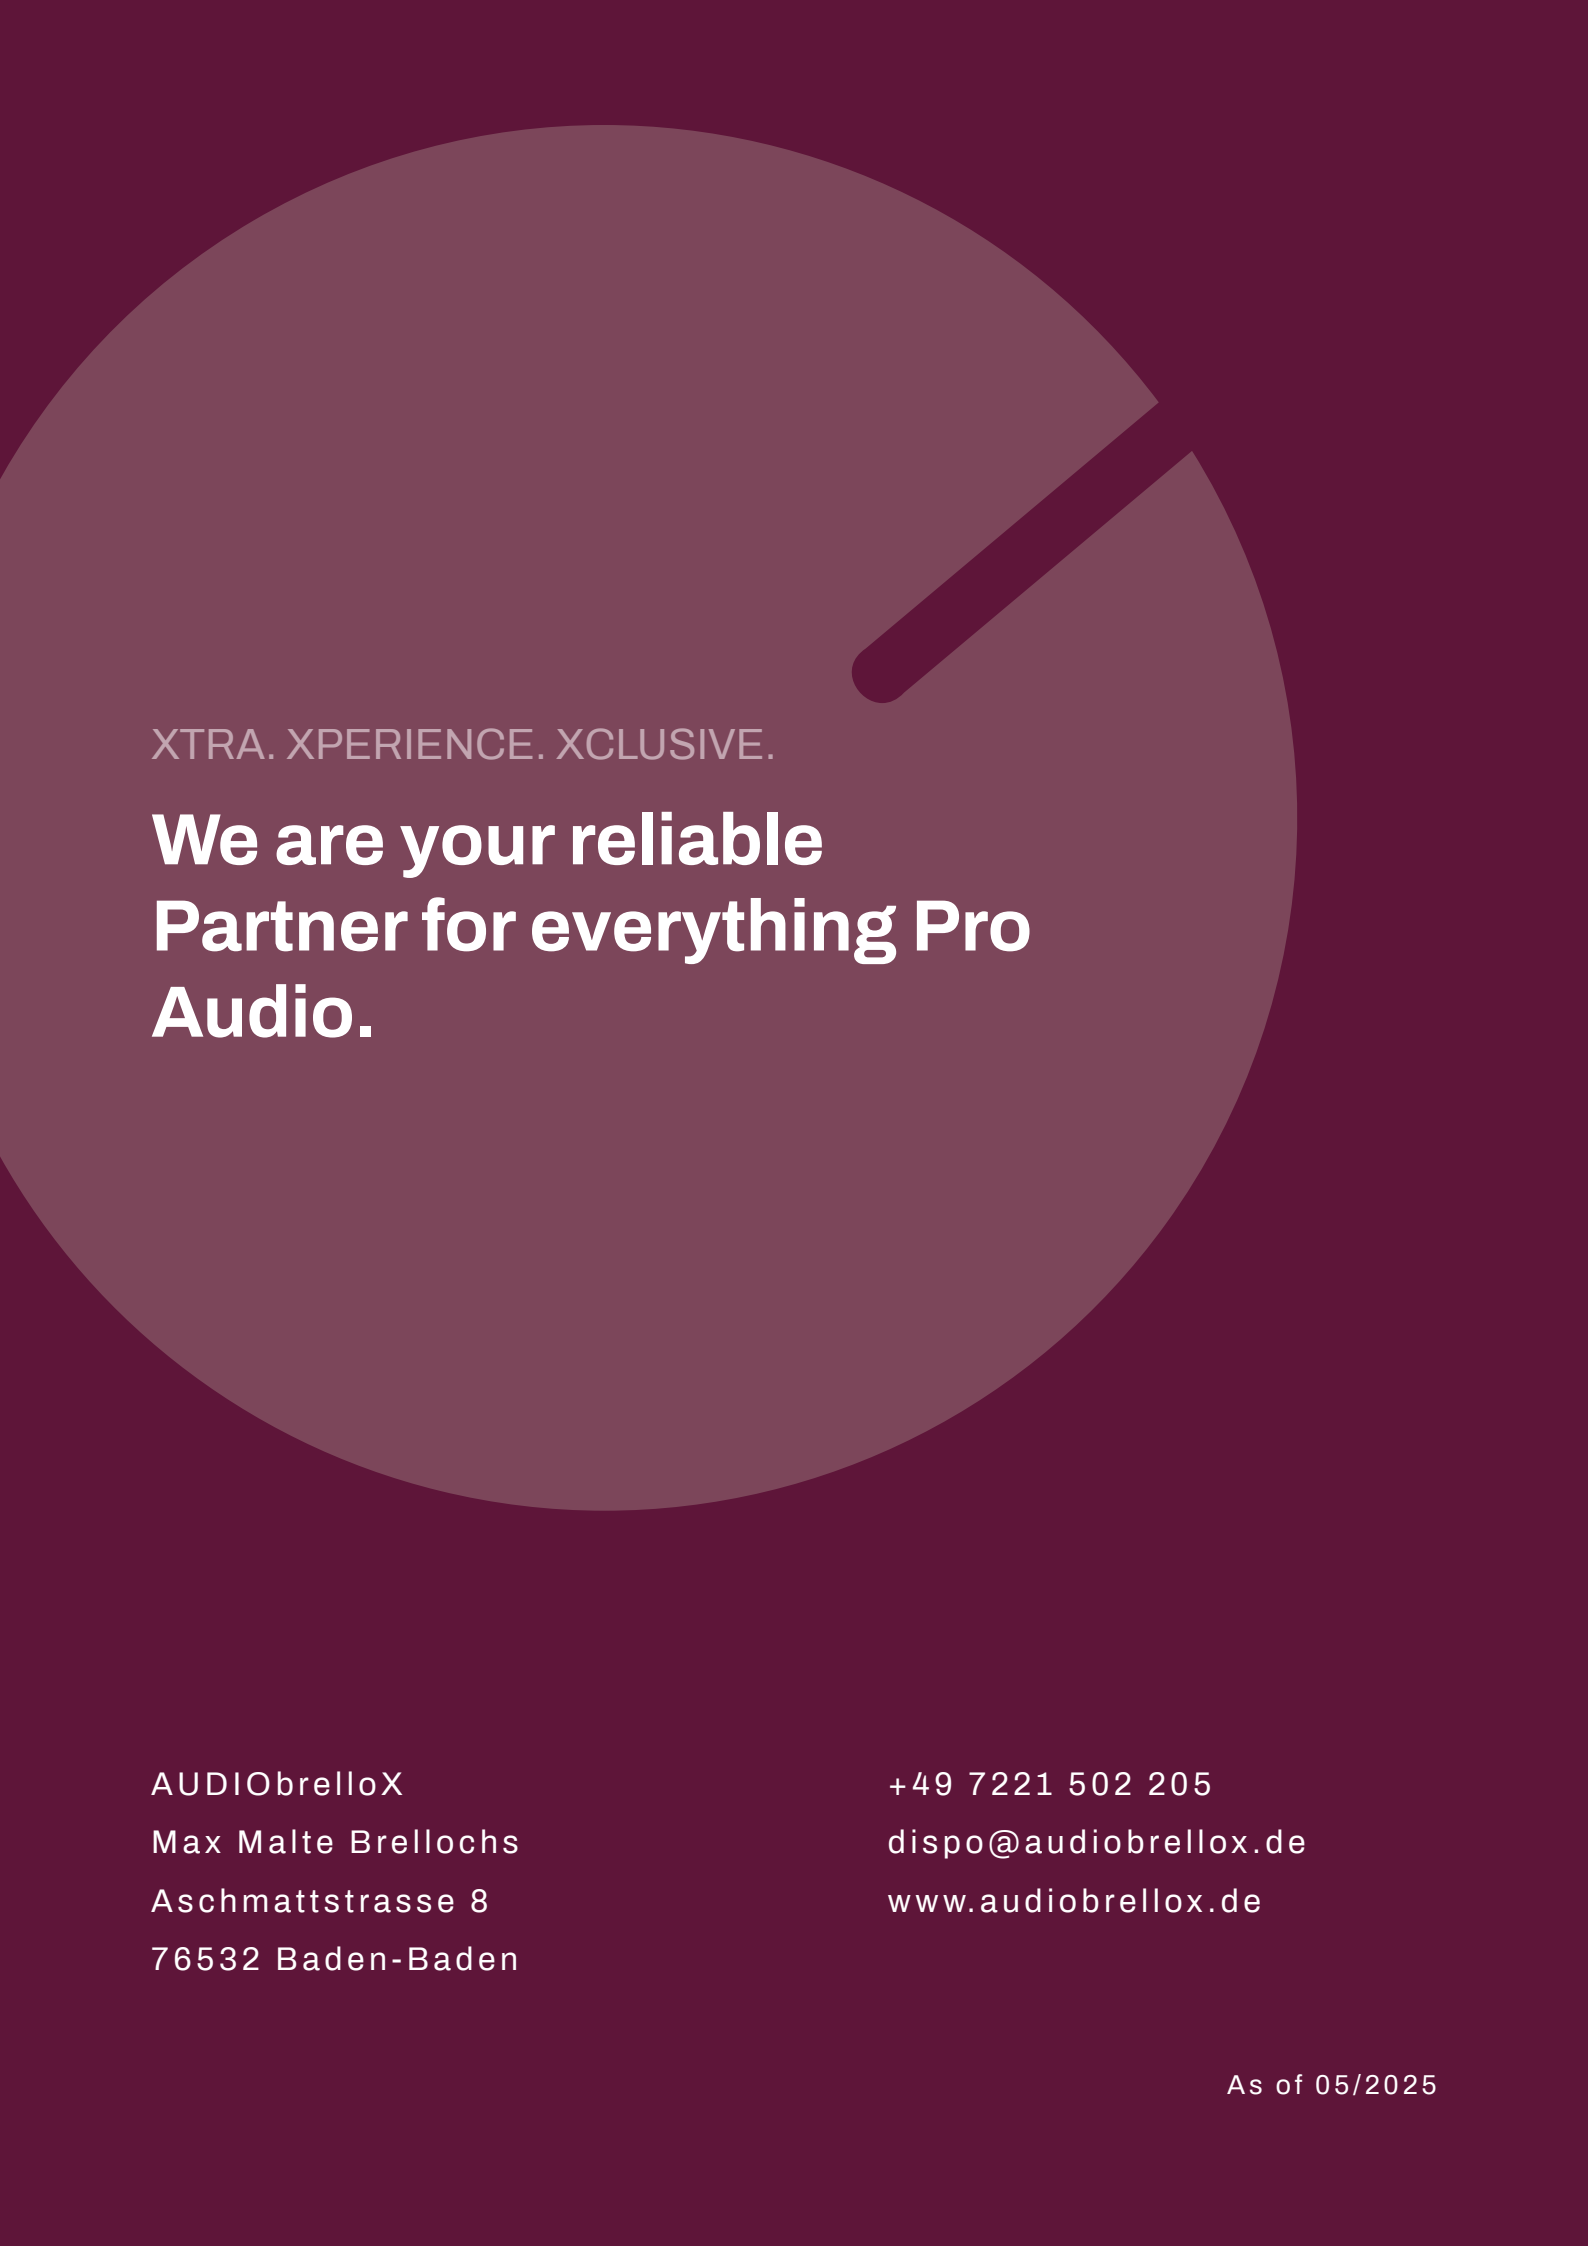

All devices are in visually and technically perfect, functional condition. They will be expected back in the same condition. Any costs incurred for the removal of extreme dirt and visual impairments will be charged separately.

All AUDIObrelloX devices are insured for rental through Max Malte Brellochs. We calculate this additional expense with an insurance premium of 1% of the net rent. The insurance coverage only comes into effect if the insurance premium of 1% of the net rent is actually charged. Through this agreement, the customer's deductible for each case of damage to a rental device is 10% of the new value of the respective device, but at least €500.

If the rental item is lost or stolen due to intent or gross negligence on the part of the customer, the replacement value of the rental item must be paid in full by the customer. The customer is obliged to immediately report the loss of rental equipment or any damage to rental equipment to AUDIObrelloX in text form.

All devices rented from third parties by AUDIObrelloX are excluded from this insurance at all times.

We would like to point out that our high-quality technical devices, in particular all audio mixing consoles and stage boxes, etc., can be tracked via AirTags to prevent theft. The customer agrees to this.

XTRA. XPERIENCE. XCLUSIVE.

**We are your reliable
Partner for everything Pro
Audio.**
